EPILIUM & SKIN

Epilium & Skin

Tucked away in Marylebone, just a short walk away from Selfridges and busy Oxford Street, Epilium & Skin promises to enhance your true beauty in the most natural way possible, using their famous 'French Touch' and help patients look rejuvenated and fresh rather than cosmetically enhanced. The clinic focuses on offering completely natural 'tweakments' and surgical procedures to help restore the natural beauty of their clientele, with all that is synonymous of French beauty- subtly, refinement and timelessness.

With an array of treatments, advising clientele n how to best restore volume lost through age, UV damage and pollution, the modern and cutting-edge clinic located on George Street also includes a tranquil surgical theatre for procedures and day care patients.

One standout treatment on offer is the HydraFacial. This deep pore cleansing facial is a non-invasive procedure designed to detoxify, resurface and rejuvenate the skin.

Leaving skin super clean and supple, the medical-grade facial rejuvenation treatment is done in five simple steps and deeply cleanses, detoxifies, exfoliates, extracts and hydrates, all in one treatment.

Designed to help manage fine lines, wrinkles, pore size, congestion and hyperpigmentation, the treatment deeply and quickly, rehydrates tired, dull and stressed skin through the use of specially

formulated serums, gentle vacuum suction and LED Phototherapy. Results-driven, whether you have blackheads, brown spots or enlarged pores, the exfoliation and extraction technique used prizes any unwanted congestion out from under the skin to improve the appearance and add much needed radiance. Finally the LED Phototherapy reduces redness and further stimulates collagen production.

With no downtime or discomfort, you can enjoy the treatment in your lunch break making it perfect for any special events you may have coming up. Results are visible in just one session, leaving skin fresh, glowy and hydrated.

HydraFacial is the most recommended facial treatment in the UK as everyone can enjoy its benefits, regardless of age and skin type. HydraFacial can be tailored to each individual to answer specific skin concerns. The price will depend on whether you choose the HydraFacial Express treatment, or combine it with additional services.

Regardless of age and skin type, anyone can enjoy the benefits of a HydraFacial as it can be tailored to the individual.

The HydraFacial Express treatment costs £120.00.
